

# Advanced Scalp Acupuncture Training

## 4 Day Seminar in Melbourne

by Dr. Suzanne Robidoux

6th- 9th December 2019

Melbourne Australia presented by Paddington Clinic

**Dr Suzanne Robidoux teaching in  
Rothenburg Germany**

This 4-day seminar focuses on learning two different scalp acupuncture systems to treat over 20 different neurological and psychosomatic diseases and disorders. After this weekend, participants will have grasped the necessary treatment protocols and needling techniques to treat diseases such as post-stroke paralysis, paraplegia, hemiplegia, aphasia, aphonia, amnesia, some degenerative diseases such as Alzheimer's disease, dementia, Parkinson's disease, multiple sclerosis, fibromyalgia, Meniere's disease as well as other types of psychosomatic diseases including ADD (Attention Deficit Disorder), ADHD (Attention Deficit Hyperactive Disorder), anxiety disorders, OCD (Obsessive Compulsive Disorder), MDD (Major Depressive Disorder) and so on.

During this seminar, participants will learn the correct location of over 24 scalp treatment lines along with their clinical applications according to specific diseases or symptoms. Afterwards we will review over 10 different single and multiple needling techniques specifically applied in scalp acupuncture as well as electro-stimulation which vary greatly from body acupuncture. A strong emphasis will be put on practicing the correct location on other participants as well as applying these specific needling techniques precisely. Enough time will be given for practicing these scalp line locations and needling technique as they are the most important factors for clinical success with scalp acupuncture.

Day 3 & 4

5 patients will be treated each day so that a full diagnosis and treatment can be completed. Time will be given for case discussion so that participants get a clear understanding of why and when to use each treatment method.

**Venue**

Australian Shiatsu College  
103-105 Evans Street  
Brunswick VIC 3059 Australia
